Kaisermutt Translation Notes

Thanks again to Watawheel for the raws.

Kirari literally says that Soru is staring into a white paper abyss (白紙の深淵を覗き込む shirokami no shin'en wo nozokikomu)

On page 4 he says his head is 真っ白 (masshiro, completely blank) just like his paper.

Kirari describes Soru and his various actions as 朝比奈君っぽい (asahina kun ppoi, Asahina-kun esque) ppoi is usually used turning a noun into an adjective but it carries a negative nuance that other grammatically similar words like よう そう and 的 don't. I also didn't realize that Soru's full name was Soru Asahina until I saw he wrote that on his survey sheet

This is the final chapter of volume 5, and with this we are fully caught up with the volume release raws (for now, by the time I finish the next few chapters volume 6 might suddenly come out) which means I will have easier access to the raws, but it also means I might not translate all of the half chapters in order (or even at all, I haven't decided yet)
